## EXPERIENCE

### Software Engineer

Addinf Pvt. Ltd.

Jun 2025 – May 2026

Nagpur, India

- Built **WhatMyRank**, a Google Business Profile auditing platform (Django + Next.js) that reduced manual audit time from 4 hours to under 60 seconds; published architecture in IJTSRD (2026).
- Engineered **MyLeadScraper** (Python + Playwright + asyncio) and REST APIs in FastAPI/Flask powering **MakeMyPost**, an AI-driven social scheduling tool — deployed on AWS/Vercel via Docker and GitHub Actions CI/CD.

### Founding Engineer (Full-Stack)

Fastship

Jun 2024 – May 2025

Remote

- Built **SuperLearn**, a Python/Node.js learning-shorts platform that scaled to 5,000+ active users and was acquired by Zupee.
- Engineered **MemoAgent**, a ChatGPT-style AI chatbot using Claude API, LangChain, and RAG with persistent memory via vector databases; designed REST APIs in FastAPI and React.js/Next.js frontends with Tailwind CSS.

## PROJECTS

**TalentIN** | *React.js, FastAPI, PostgreSQL*

[Code](#)

- Candidate-employer matching platform with Python (FastAPI) search/filter APIs, React.js UI, and JWT authentication. **1st Place** — Inter-College Webezy Hackathon (District Level).

**Bedtime Stories** | *Python, Flask, React.js, Web Speech API*

[Code](#) | [Live](#)

- Full-stack story-reading app with Python/Flask backend and React.js frontend delivering text + voice via Web Speech API (TTS). Deployed on Vercel.

**GMB Forensic Auditor** | *Python, Next.js, Async HTTP, n8n*

[Code](#) | [Live](#)

- Python-orchestrated audit engine for Google Business Profiles using async HTTP, parsing pipelines, and a Next.js dashboard. Published in IJTSRD (2026).

## SKILLS

### Languages

Python, JavaScript, TypeScript, SQL, HTML, CSS, Bash

### Python Frameworks

FastAPI, Django REST Framework, Flask, LangChain, Playwright, asyncio, Pandas

### Frontend

React.js, Next.js, Tailwind CSS, React Hooks, Responsive Design, SSR

### Backend & DBs

Node.js, Express.js, REST APIs, PostgreSQL, MongoDB, Supabase, Vector DBs

### AI / LLM

Claude API, OpenAI API, LangChain, RAG, Prompt Engineering, AI Agents

### DevOps & Tools

Git, GitHub, Docker, Linux, Vercel, AWS, CI/CD (GitHub Actions), n8n, Postman

## ACHIEVEMENTS

- Hackathon Winner** — 1st Place, Inter-College Webezy Hackathon (District Level); 3rd Place, College-Level Website Making Competition.
- HackerRank 5-Star** in SQL and Python; Open-Source Contributor, GirlScript Summer of Code (GSSoC).

## EDUCATION

### Vivekanand Business School

Master of Business Administration (MBA)

CGPA: 2.4 / 4.0

Mumbai, India

2023 – 2025

### City Premiere College

Bachelor of Commerce in Computer Application (BCCA)

CGPA: 8.32 / 10.0

Mumbai, India

2019 – 2022
